Winter Reset Guide

Before the reset	During the reset	After the reset
The day before Day 1, choose simple plant-based meals and reduce alcohol, fried foods and very heavy meals.	Follow the listed order. Keep almond mylk and shots chilled. Reheat soups and broths according to the label and consume promptly. Drink water according to thirst and activity.	After Day 3, return gradually to balanced meals with cooked vegetables, whole grains, tofu or legumes. Avoid beginning with a very heavy or fried meal.

Keep all supplied products refrigerated. This is a short structured wellness programme, not a medical treatment. Stop and seek appropriate help if you experience fainting, persistent vomiting or diarrhoea, confusion, severe weakness or an allergic reaction.
